

Dr. Walter S. Scott
Executive Vice President and Chief Technical Officer
DigitalGlobe

Dr. Walter S. Scott is our founder and currently serves as our Executive Vice President and Chief Technical Officer. Dr. Scott founded DigitalGlobe in 1992 as WorldView Imaging Corporation, which was the first company to receive a high resolution commercial remote sensing license from the U.S. Government (in 1993), under the 1992 Land Remote Sensing Policy Act. From 1986 through 1992, Dr. Scott held a number of technical, program and department management positions at the Lawrence Livermore National Laboratory, including serving as the Assistant Associate Director of the Physics Department. Prior to this, Dr. Scott served as President of Scott Consulting, a Unix systems and applications consulting firm. Since April 2013, Dr. Scott has served on the Board of Directors of The Open Geospatial Consortium (OGC), an international industry consensus standards organization. Dr. Scott holds a Bachelor of Arts in Applied Mathematics, magna cum laude, from Harvard College and a Doctorate and Master of Science in Computer Science from the University of California, Berkeley.
